September, 3<sup>rd</sup> month of the 3<sup>rd</sup> quarter, which, in addition to *Labor Day*, includes these interesting holidays:

<http://familycrafts.about.com/library/spdays/blseptdayslong.htm>

Labor Day has an interesting history:

[http://en.wikipedia.org/wiki/Labor\\_Day](http://en.wikipedia.org/wiki/Labor_Day)

And of course the standard *September Song*, here song by Billy Eckstine:

## -Industry News-

a little light reading on *Checking out safety at your funeral home, cemetery and crematory before OSHA does*: <http://www.technetrain.net/Articles/Part6.pdf>

a little more: <http://www.technetrain.net/Articles/cemfuna.html>

A win-win for employees and businesses. Companies of all sizes have had great success in using an ergonomics program as a cost-effective way to prevent or reduce work-related MSDs, keep workers on the job and boost productivity and workplace morale.

Developing a safety program may seem like a daunting and expensive task for your business; but it is essential and it is money well-spent. Studies have shown a \$4 to \$6 return for every dollar invested in safety and health.

Remember, a successful safety program is key to having not only healthy and competent workers, but also a healthy, successful business.

Make your firm a *no lift zone...much easier than you may think*

Sept. Focus on Frigid ([www.frigidfluidco.com](http://www.frigidfluidco.com)):

An alternative to stainless steel top prep tables is the **FFC Da Vinci Morgue Table:**

The sleek, classic look of porcelain in lightweight, durable fiberglass gives this table an aesthetic reminiscent of days gone by. Like its namesake, the Da Vinci offers both stunning visual appeal and innovative, reliable mechanics.

The Da Vinci incorporates a full-size top of tough, highly chemical and stain resistant fiberglass with provision for headrest and drain connection. The top is slightly bowed across its width to help direct runoff towards the extra deep trough.

Below the top is a sturdy, tubular aluminum base from Ferno Washington that has been exclusively modified to fit our top. The base is fully adjustable on both ends for perfect height and drainage. The large, heavy duty, rubber tire wheels with chrome hubs lock independently for extra sturdiness.

- strong, lightweight fiberglass top
- top is 30" in width and 79" in length
- base adjusts from 29"-35" high
- 4 individually-locking wheels
- top contains FDA approved gelcoats
- all materials used are fire retardant
- shipping dimension: 83" x 35" x 9"
- shipping weight: 150 lbs.

*Available exclusively thru **Gorder Supply**, your FFC Service Rep in IA, MN, MT, ND, SD and WY.*

The original SDIB Mailing Container for cremated remains is back, and priced at only \$2.10. (minimum order is 1000 containers...liner bag and twist tie not included)
